## A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 15 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blessed with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Cloudcroft Notes.

Miss Elizabeth Stevens gave a week-end house party at the Stevens cottage, "Hillside."

Mrs. J. W. Pettus and her daughter, Nana, came to Cloudcroft to visit Mrs. W. G. Roe.

Mrs. Love entertained most delightfully at bridge Friday afternoon. Mrs. Loomis won the first prize, a spoon.

Mrs. H. Andrews, the second, a framed picture of the lonesome pines, and Mrs. Roe, the consolation.

The weather in Cloudcroft has been exceptionally fine for this time of the year, with only three or four light showers the past week. The flowers are more abundant and beautiful than usual, due to the early rains.

Perhaps on account of the delightful weather there are many guests at the lodge. Some of them are: W. S. Cunningham, Mrs. W. Carroll, Mrs. F. C. Doyle, Mr. and Mrs. J. A. L. Lullo, from El Paso; Miss Emma K. Burle, from San Antonio; Mrs. E. B. Barefoot, Hachita, N. M.; Miss Emma Hastam, Kyle, Texas; Mrs. S. J. Wagner, Wichita, Kan.; Mrs. W. E. Wilke, Phoenix, Mrs. C. A. Rees and Miss Helen Rees, Oklahoma.

## Useless Taxes Paid To State; Expensive To El Paso Citizens

Raises in Valuations Have Made El Pasoans Pay Thousands of Dollars to Texas When Other Counties Were Dodging; Money Could Easily Have Been Saved by Raising the County Tax Rate.

To the Taxpayers of El Paso County: The greatest concern to the property owners and voters generally, is the selection of their county officers, in reference to the business management that will be given to public matters.

If an administration in the past has, through indifference, neglect or extravagance, mismanaged the financial affairs of the people, it would be safe to assume that a continuance of the administrative functions under the same domination would be a repetition of the past.

I assert that the financial affairs of this county have been grossly mismanaged by the present county administration. The influence and domination of what is termed the "mischievous" party, and your committee, reported in Vol. 129 of the Southern Reporter, page 454, and the supreme court of the United States in the case of Raymond vs. the Chicago Union Trust Co., reported in Vol. 100 of the United States Supreme Court Reports, page 78. Those decisions are based upon the theory that the people of this county should not pay on their property more than the people of other counties in the state. For illustration, if you own \$100 worth of property in El Paso county, Texas, and your county assesses it at \$15 for taxable purposes, and the people of Harris county, Texas, assess theirs at \$10 for taxable purposes, and the people of Tarrant county 40 cents on the dollar for taxable purposes, and the other counties in the state, would not the decision of the supreme court of the United States, as well as the supreme court of the state, be entitled to more credit than the assessor of El Paso county?

In 1912, and in June, 1913, representatives were made by citizens to the commissioners' court, protesting against the exorbitant values placed upon the property in El Paso county by the court. When those representatives first made their protest, the commissioners admitted the correctness of the contention, and protested that they would rectify the situation in the next session. But the commissioners, by their own admission, were prevented from carrying out their object by those higher up, who wielded an influence over the court, with the result that the court failed and refused to extend to the people of this county the relief they were entitled to, namely a reduction in the values. As an evidence of the fact that the contention had merit and was well made, the county assessor and the county clerk have made a drastic reduction of ten percent upon practically every piece of property in the county, which in itself while being insufficient, has nevertheless saved the people of this county many thousands of dollars at the next tax paying period. This drastic reduction in the values made during the summer of 1913.

You, as a taxpayer, are interested in this matter in this way: The values are increased by the county commissioners, it compels you not only to pay more taxes to the county, but it also compels you to pay more to the state of Texas. To show you what that additional amount comes to in dollars and cents, you will find that the grossly inflated values have been raised by the present administration.

In 1907, the commissioners raised the values in this county \$25,638,941 over the previous year. The state rate during that year was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1908, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1909, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1910, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1911, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1912, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1913, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1914, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1915, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1916, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1917, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1918, the state rate was 21-1/2c on the hundred. This caused the people to pay an additional sum of \$13,540,005 more than they had paid the year before. In 1919, the state rate was 21-1/2c on the hundred.
